# Documentation of assessor colour vision properties for visual assessment

The assessor has **normal** colour vision according to one test: **underline Yes/No**
either according to DIN 6160:1996 with Anomaloskop of *Nagel* **underline Yes/unknown**
or with test charts using colour points according to *Ishihara* **underline Yes/unknown**
or tested with, please specify: ..... **underline Yes/unknown**

# For visual evaluation of the display (monitor, data projector) output

Office workplace illumination is daylight (clouded/north sky) **underline Yes/No**
**PDF file:** http://130.149.60.45/farbmetrik/OE74/OE74F1P2.PDF **underline Yes/No**
**PS file:** http://130.149.60.45/farbmetrik/OE74/OE74F1P2.PS **underline Yes/No**
**Picture A7**-030-2: **contrast range:** (>F:0) (F:0) (E:0) (D:0) (C:0) (A:0) (9:0) (7:0) (5:0) (3:0) (<3:0)
compare standard print output according to ISO/IEC 15775 with range F:0 **underline range**
*Remark: In daylighted offices the contrast range is in many cases:*
*on display between: >F:0 and E:0 (monitor), D:0 and 3:0 (data projector)*

# Only for optional colorimetric specification with PDF/PS file output

**PDF-File:** http://130.149.60.45/farbmetrik/OE74/OE74F1P2.PDF
**picture A7**-030-2 **underline Yes/No**
**PS-File:** http://130.149.60.45/farbmetrik/OE74/OE74F1P2.PS
**picture A7**-030-2 **or underline Yes/No**

**colour measurement and specification for:**
CIE standard illuminant D65, 2 degree observer, CIE 45/0 geometry: **underline Yes/No**
If No, please give other parameters: .....

**Colorimetric specification with PS file for colours in the columns A to T**
Exchange of CIELAB data in file www.ps.bam.de/De17/10L/L17e00NP.PS and transfer
of the PS-file L17e00NP.PS in PDF-file L17e00NP.PDF **underline Yes/No**
If No, please describe other method: .....
