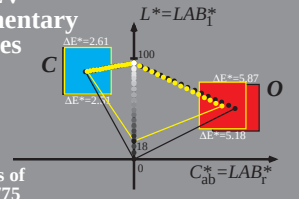
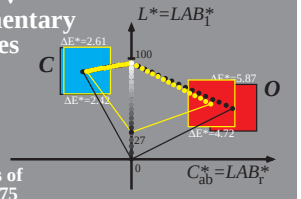
CMYOLV complementary hue planes — *cmyolv* default color space*



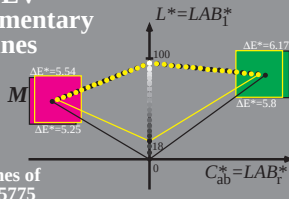
colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS18: Television Luminous System
Black lightness L = 18*

CMYOLV complementary hue planes — *cmyolv* default color space*



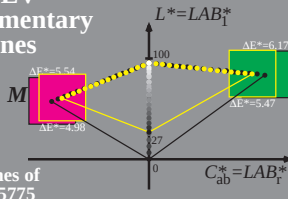
colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS27: Television Luminous System
Black lightness L = 27*

CMYOLV complementary hue planes — *cmyolv* default color space*



colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS18: Television Luminous System
Black lightness L = 18*

CMYOLV complementary hue planes — *cmyolv* default color space*



colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS27: Television Luminous System

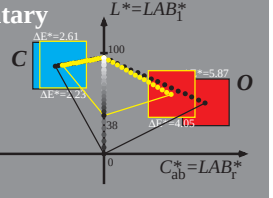
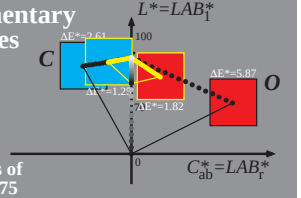
CMYOLV complementary hue planes — *cmyolv* default color space*



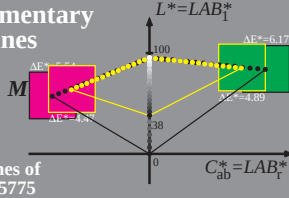
colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS38: Television Luminous System
Black lightness L = 38*

CMYOLV complementary hue planes — *cmyolv* default color space*



colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS70: Television Luminous System
Black lightness L = 70*

CMYOLV complementary hue planes — *cmyolv* default color space*



colour names of ISO/IEC 15775
Reference TLS00: Television Luminous System
Black lightness L = 00*
Transfer TLS38: Television Luminous System
Black lightness L = 38*

CMYOLV complementary hue planes — *cmyolv* default color space*
