

logarithmic U -sensitivity

$$U = (P_o \cdot D_o)^{0,5}$$

$$\log U = (\log P_o + \log D_o) / 2$$

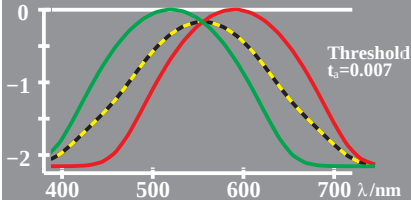

$$\log [U, P_o, D_o]$$

$$u_\lambda = (\lambda - 555) / 50$$

$$\log P_o = -0,35[u_\lambda - u_{590}]^2$$

$$\log D_o = -0,35[u_\lambda - u_{520}]^2$$

Adaptation: $\lambda_{PD} = 555$
