## Equality of 16 step colour series by two definitions (Yes/No decision)

There are three basic colours on each page: Black N, White W and Chromatic X
Ten pages include 10 hue planes X = OYLCVM and RJGB
Any colour is defined by two different PS-operators in center and surround field

All colours of the three series $\mathrm{N}-\mathrm{W}, \mathrm{W}-\mathrm{X}$ and $\mathrm{X}-\mathrm{N}$ should equal on all pages
Are the center and surround field colours equal on all pages?
