De370-7N: Measurement: 9 step equidistant colour series, Interpretation: rgb -> olv*, adapted, ORS18a LUT-data of De000-7 used

BAM-test chart De37; Colour device output: ORS18a
9 step colour series; 8 standard device systems, Page 1/8

input: $rgb \rightarrow olv^*$
output: no change compared to input

De370-7N: Measurement: 9 step equidistant colour series, Interpretation: rgb -> olv*, adapted, TLS00a LUT-data of De000-7 used

BAM-test chart De37; Colour device output: TLS00a
9 step colour series; 8 standard device systems, Page 2/8

input: $rgb \rightarrow olv^*$
output: no change compared to input
