

Access of ISO-TC42 members to working documents of CIE Division 1

CIE D1 *Vision and Colour* produces 3 more document types compared to ISO: CIE D1 Reports: **Annual (AR)**, **Meeting (MR)**, and **Reportership (RR)**. There were requests of ISO committees to the CIE for a colorimetric support. In some cases a CIE TC was created to solve this ISO problem with a document exchange until the final publication. An example is CIE 184 (indoor daylight). In other cases the CIE nominates a Reportership Reporter to write a (public) RR. Many Reporters liked this job because the copyright remained by the author.

Table 1: Access of TC42 members to CIE Liaison documents?

CIE document created	until 2017	since 2018	copy-right	public access to CIE documents
CIE D1 Annual Meeting Report D1MR	public CIE Website	internal D1 members	CIE	until 2017, see WBM archive [1]
CIE D1 Annual Activity Report D1AR	public CIE Website	internal D1 members	CIE	until 2017, see WBM archive [1]
CIE D1 Reportership Report D1RR	public CIE Website	internal D1 members	Author	until 2017, see WBM archive [1]
CIE D1 WD/CD/ED/AD WD/CD TC internal	internal TC/ D1 members	internal TC/ D1 members	CIE	until 2015, limited TC42 access
CIE D1 TR or IS D1TR, D1IS	public, see CIE shop	public, see CIE shop	CIE	TC42 members: buy in CIE shop

 seen by public (to buy)   limited or no access for TC42 members
