Anwendung für Beurteilung und Messung von Drucker- oder Monitorsystemen

A vertical diagram of a protein structure, likely a beta-strand, showing a sequence of amino acids. The structure is represented by a series of vertical lines. The segments are colored and labeled as follows: a blue segment at the top labeled 'V', a green segment labeled 'L', a red segment labeled 'D', a yellow segment labeled 'Y', a magenta segment labeled 'M', and a cyan segment at the bottom labeled 'C'. The segments are connected by black lines, indicating the backbone of the protein.
