

$Q_{ab}(x_r)$ = achromatic response function

$$Q_{ab}(x_r) = \frac{b}{\ln \sqrt{2}} \ln \left[1 + \frac{1}{1 + \sqrt{2} e^{x_r/a}} \right] - b \quad a=0,50, b=1,00, e=2,718282$$

$$F'_{ab}(x_r) = \frac{b}{a^2 + x_r^2}$$

$a=1,00; b=1,00$
